
RESPIRI LIMITED

QUARTERLY REPORT – APPENDIX 4C FOR THE PERIOD TO 30 JUNE 2018

Please refer to the attached Appendix4C for the cash flow results for the Respiri Group for the period to 30 June,2018.

HIGHLIGHTS FOR THE QUARTER:

- **Successful \$3.0m capital raise to fund last phase of Gen II device development**
- **Cash on hand at 30 June, 2018 \$2.4m, further strengthened by FY18 R&D tax incentive expected to be received in the next quarter**

FINANCIAL COMMENTARY

The cash balance at the end of March 2018 was \$0.9m. During the quarter, the company completed a successful \$3.0m capital raising which has resulted in a very solid cash position with \$2.4m cash on hand at June 30, 2018.

On April 24, 2018 the company released a further announcement providing greater detail on proposed use of funds in accelerating all activity towards delivering on communicated key milestones. Expenditure and focus in this quarter has been consistent and aligned with this objective.

As a result, during the quarter the company incurred higher than forecast R&D costs associated with the early completion of the demonstration prototype (April) allowing acceleration of the next phase of development towards a fully functional medical device quality and manufacture ready product. Phasing of implementation of our Quality Management System and ISO13485 certification to facilitate regulatory approvals in target launch markets was anticipated and also incurred in this quarter. With higher R&D expenditure incurred, the FY18 R&D tax incentive expected to be received in the next quarter, will be at least in line with or higher than incentives received for prior years.

Higher than anticipated staff, administration and corporate costs this quarter are primarily due to earlier timing of insurance premiums and management travel, due to the demonstration prototype being available earlier than planned thus accelerating our overseas meeting schedules. As well, we had additional board related costs associated with CEO onboarding and board changes as outlined in the company's announcement dated 30 May, 2018. Otherwise, full year expenditures remained largely as planned.

With a strengthened cash position, Respiri remains on track to deliver on each major device development milestone to support the successful launch of the Gen II device by Q3 FY19 (Q1 2019 calendar year).

About Respiri Limited (ASX:RSH)

Respiri is a health technology company leading the way in the development of innovative devices and mobile health apps to improve the management of chronic and costly respiratory disorders such as asthma and COPD. Building on decades of experience in the research and development of cutting edge clinical products for hospitals, the company has first-mover advantage in providing broad access to its proprietary acoustic based clinical solutions for remote monitoring with the development of a suite of over-the-counter connected devices.

Health authorities universally agree that mHealth solutions can transform asthma care and health conscious consumers are rapidly embracing patient self-management with the aid of smartphones, the growth engine for Respiri's flagship product, AirSonea®. With the addition of new products, including a connected device for nocturnal monitoring in development, Respiri has a captive market, globally, of parents and carers of young children who cannot perform lung function tests. Respiri products have been cleared for use by the US Food and Drug Administration, the European Union CE, the Australian TGA and the commencement of an approval process for Asian markets has begun.

Respiri is especially proud of its recent de-risking of milestones. The substantial achievements over the past 18 months place Respiri in a lower risk position and on the cusp of commercialisation compared to the vast majority of medical device and biotech companies.

Notes

1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity that wishes to disclose additional information is encouraged to do so, in a note or notes included in or attached to this report.
2. If this quarterly report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
