Directors' Report 31 December 2020

The Directors' of Respiri Limited ("RSH", "Respiri", "The Company" or "the Group") provide the following Report on the consolidated entity consisting of Respiri Limited and the entities it controlled for the half year ended 31 December 2020.

Information on directors

The names of each person who has been a director during the half year and to the date of this report are:

Mr Marjan Mikel	CEO (Appointed on 2nd December 2019) Executive Director (Appointed on 25th November 2019)
Mr Nicholas Smedley	Non-Executive Director (Appointed on 30th October 2019) Executive Chairman (Appointed on 15th November 2019)
Dr Thomas Duthy	Non-Executive Director (Appointed on 11th February 2020)

Principal activities

The Company's principal activities in the course of the financial year have been the research, development and commercialisation of medical devices, and the development of mobile health applications.

There were no significant changes in the nature of the Company's principal activities during the half year.

Review of operations

The six months to December 2020 was an exceptionally productive and busy period for Respiri, with a resolute focus on the Australian launch of wheezo, in partnership with Cipla which was achieved on time and on budget, despite significant COVID-19 headwinds including a complete lockdown in the State of Victoria. In addition, the Company successfully completed a major manufacturing cost-out initiative with its manufacturing partner Entech Electronics, resulting in a reduction in the costs of goods sold by up to 85% on prior levels.

Based on pharmacy-level feedback and in consultation with Respiri's Australian exclusive sales and marketing partner Cipla, the Company revised down the wheezo unit pricing and increased the monthly subscription fee to drive demand for patients more sensitive to upfront device costs. As a result, Cipla committed to increase the initial minimum order quantity by 250% to 7,000 units.

The Company continues to develop and improve upon the wheezo technology platform by way of investment into Research and Development. In October, the Company filed an additional patent application based on improvements made to the wheezo™ algorithm over the last 6 months by the Company's development team. The additional Intellectual Property (IP) relates principally to a method of processing recordings of a subject's breathing, whereby an analysis algorithm processes the sound signal and marks periods containing pitch that is characteristic of wheeze via the trachea while concurrently eliminating background noise. The result is an improved level of detection and a standardised and reproducible measure of wheeze. The Company continues to progress its clinical development plans, which aims to standardise wheeze definition through objective measures and not subjective assessments.

In December, the Company announced a sales and marketing partnership with the Pharmacy 4 Less group of pharmacies for the sale of wheezo devices commencing in early 2021 across their pharmacy network. With a network of over 100 stores across Australia, the Pharmacy 4 Less group is built on a foundation of professional expertise and personal service. Respiri will support the group with a commitment to build a relevant training program focused on asthma management using wheezo.

Respiri also successfully onboarded the Pharmacy Platform Group during the quarter and is the leading independently owned pharmacy services business in Australia, operating across all sectors of the pharmacy industry.

The total number of pharmacies onboarded with wheezo is now to approximately 500.

Directors' Report

Review of operations (continued)

The Company has continued its regulatory dialogue with the United States Food and Drug Administration (US FDA) relating to the filing for regulatory clearance of wheezo in the US via the 510(k) process for wheezo™ and the associated software system.

The clearance, if granted, will allow Respiri to market and sell wheezo in the US for the detection and monitoring of respiratory wheeze, reported as the wheeze rate. The Company anticipates receiving regulatory clearance before the end of March 2021. This would represent a major milestone for the Company.

In October, Respiri completed an oversubscribed \$12.5m share placement to institutional, professional and sophisticated Australian investors and included a number of new institutional investors onto the share register with strong support from our existing investors. The additional funding provides Respiri with the financial flexibility to meet stated corporate objectives, which included the commercial launch of wheezo™ in Australia, which occurred during the quarter and in the longer term progressive commercial launches in key offshore markets including the US and Europe/UK. The capital raised is expected to fully fund the Company to a sustainable cash flow breakeven position, which is forecast to occur in the second half of FY22.

The Company recorded revenue from sales of wheezo devices of \$124,896, representing initial sales to Cipla under the Exclusive Sales/Marketing, Distribution & Logistics Agreement signed in July 2020 and additional online wheezo orders.

Product manufacturing and operating costs of \$765,191 reflect the costs associated with initial scale up manufacturing and inventory build including long lead time componentry for 25,000 devices to support expected future demand. Global supply issues as a result of the COVID pandemic have resulted in unavoidable delays in sourcing manufacturing materials and componentry which will have a short-term delay on the next manufacturing batch of wheezo planned for the March 2021 quarter now scheduled for delivery in April 2021.

Advertising and marketing costs for the half year of \$1,197,070 include costs associated with the launch of wheezo in Australia during the quarter, promotional activities and costs associated with the patient experiential program. Administration and corporate costs of \$866,424 reflect the additional headcount required to support Respiri's corporate objectives, including manufacturing, quality, regulatory and commercial personnel.

\$856,524 in inventories and \$11,446,722 in cash were on hand at the end of the half year period.

Auditor's independence declaration

The auditor's independence declaration in accordance with section 307C of the *Corporations Act 2001* for the half year ended 31 December 2020 has been received and can be found on page 3 of the financial report.

Signed in accordance with a resolution of directors made pursuant to s.306(3) of the Corporations Act 2001

Notes to the Financial Statements

For the Half Year Ended 31 December 2020

1 Statement of Compliance

The half-year financial report is a general purpose financial report prepared in accordance with the *Corporations Act 2001* and AASB 134 'Interim Financial Reporting'. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 'Interim Financial Reporting'. The half-year report does not include notes of the type normally included in an annual financial report and shall be read in conjunction with the most recent annual financial report.

Basis of Preparation

The condensed consolidated financial statements have been prepared on the basis of historical cost. Cost is based on the fair values of the consideration given in exchange for assets. All amounts are presented in Australian dollars, unless otherwise noted.

The accounting policies and methods of computation adopted in the preparation of the half-year financial report are consistent with those adopted and disclosed in the Group's 2020 annual financial report for the financial year ended 30 June 2020. These accounting policies are consistent with Australian Accounting Standards and with International Financial Reporting Standards.

Going Concern

The financial statements have been prepared on the going concern basis, which contemplates continuity of normal business activities and the realisation of assets and discharge of liabilities in the normal course of business.

As disclosed in the financial statements, the consolidated entity incurred a loss of \$6,388,764 (HY2019: \$1,421,896) and had net cash outflows from operating activities of \$3,790,579 (HY2019: \$1,905,077) for the half-year ended 31 December 2020. As at that date the consolidated entity had net current assets of \$11,531,558 (June 2020: \$2,435,033) and net assets of \$11,574,713 (June 2020: \$2,494,776).

The Directors believe that there are reasonable grounds to believe that the Group will be able to continue as a going concern, after consideration of the following factors:

The consolidated entity has prepared budgets and cash flow forecasts for the next 12 months from the date of this report which indicate the consolidated entity will have a positive cash balance during this period. The Group has generated revenue in the half year ended 31 December 2020 of \$124,896 and is expecting to continue to increase revenue over the next 12 months.

The group completed an oversubscribed \$12.5m share placement in October 2020 resulting in cash and cash equivalents of \$11,446,722 on hand at 31 December 2020 and has no borrowings, resulting in a strong balance sheet to support its activities.

The Group has continued to receive Research and Development (R&D) Tax Incentive income in relation to these activities, including \$986,710 cash received in the half year for the R&D activities conducted in the 2020 financial year. The Group expects to receive further R&D Tax Incentive income in relation to its 2021 financial year R&D activities.

Accordingly, the Directors believe that the Group will be able to continue as a going concern and that it is appropriate to adopt the going concern basis in the preparation of the financial report. The financial report does not include any adjustments relating to the amounts or classification of recorded assets or liabilities that might be necessary if the Group does not continue as a going concern.

Should the Group be unable to achieve the matters set out above, a material uncertainty would exist as to whether the Group would be able to continue as a going concern and therefore whether it would realise its assets and discharge its liabilities in the normal course of business.

8 Dividends

No dividends have been declared for the period ended 31 December 2020.

9 Segment Information

AASB 8 requires operating segments to be identified on the basis of internal reports about components of the Group that are regularly reviewed by the chief operating decision maker in order to allocate resources to the segment and to assess its performance.

Information reported to the Group's Chief Operating Decision Makers for the purposes of resource allocation and assessment of performance is more specifically focused on the geographical locations of the Group's operations.

The Group's reportable segments under AASB 8 are therefore as follows:

- Australia
- Israel

The Australia reportable segment activities include research, development and commercialisation of medical devices, and the production of Mobile Health applications in Australia.

The Israel reportable segment activities include research, development and commercialisation of medical devices.

In prior years, the Group has had operations in United States; however these operations have ceased and therefore are no longer reported as a reportable segment.

Information regarding these segments is presented below. The accounting policies of the reportable segments are the same as the Group's accounting policies.

Office of the Chief Scientist- Israel

Following approval from the Office of the Chief Scientist in Israel (OCS), four OCS grants totalling USD\$541,470 were received by Karmel Medical Acoustic Technologies Ltd (KMAT) prior to 2006 to assist with the R&D of technologies. The R&D associated with these OCS grants was acquired by Respiri from KMAT in 2006, together with the associated OCS grant obligations. In 2008, Respiri subsequently received two further grants from the OCS totalling USD\$307,047 to assist in the funding of ongoing R&D work.

The terms of the OCS grant scheme specify that should technologies be developed with the direct assistance of a grant, and be commercialised, and generate sale revenue for the company, a royalty of between 3% - 3.5% of the associated sales revenue will be paid to the OCS until that OCS grant amount, plus applicable interest applied to that grant amount (based on LIBOR) has been repaid.

INDEPENDENT AUDITOR'S REVIEW REPORT To the Members of Respiri Limited

We have reviewed the accompanying half-year financial report of Respiri Limited which comprises the consolidated statement of financial position as at 31 December 2020, the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the half-year end or from time to time during the half-year.

Directors' Responsibility for the Half-Year Financial Report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2020 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of Respiri Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Respiri Limited, would be in the same terms if given to the directors as at the time of this auditor's report.

Material Uncertainty Related to Going Concern

We draw attention to Note 1 in the half-year financial report, which indicates the consolidated entity incurred a net loss of \$6,316,255 and had net cash outflows from operating activities of \$3,790,579 for the half-year ended 31 December 2020. As stated in Note 1, these conditions, along with other matters as set forth in Note 1, indicate that a material uncertainty exists that may cast significant doubt on the consolidated entity's ability to continue as a going concern. Our conclusion is not modified in respect of this matter.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Respi Limited is not in accordance with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2020 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and *Corporations Regulations 2001*.
